From the Director's Desk:

Happy New Year. We are now in the second semester. Students in elementary and middle school will keep the same schedule. High school students will now take Critical Thinking instead of Art for their elective class.

We would very much appreciate if you could restock the basic school supplies for your student. If you would like to make donations of pencils, paper, tissues, glue sticks or other supplies for students who may not be able to purchase the items, we would gladly accept it and distribute as needed.

Now that the weather is colder, you should put your order in now for a school uniform jacket. The uniform policy does not allow students to wear personal jackets in the building. If this is a financial issue, please contact me. Jennifer Atchison
